

Authentic Dental Lab offers internships to ambitious individuals who are hard-working and ready to learn. Authentic is a fast-paced productive environment, but we are willing to teach individuals who aspire to work in a dental lab.

Many of our employees have been with us over 10, 20, 30+ years. Some of our employees had no prior training, but were willing to devote their time to learn. They have developed into great, loyal employees for our lab.

**Program:**

- 35 hours/9a - 5p, M-F/unpaid  
(if you are currently employed or in school we can work with your specific time schedule)
- You will be shadowing our experienced lab technicians.
- You will learn good vs. bad impressions, margins, preps, etc.
- You will see the various types of restorative options.
- You will learn our procedures; follow the case through each dept.
- Q&A with experienced lab technicians.
- You will see how a manufacturing company operates.
- You will learn lab terminology to be able to communicate with a dental lab.

\*You will need to wear scrubs/closed toe shoes and hair tied back at all times at our facility.

Please remember, dental technicians will be taking time from their production to show you the process of fabricating dental crowns. **We will turn away interns that do not follow our lab policies. Being on time and respecting the technician's valuable time is extremely important.**

**Get started:**

To apply, email Whitney at [whitney@authenticlab.com](mailto:whitney@authenticlab.com). Provide your contact info and details about yourself, your goals, and why you want to intern at our lab. If you have a resume, please include it in the email. Whitney will contact you with questions and setup your interview.

**Our time is valuable. Please only serious inquiries need apply.**
